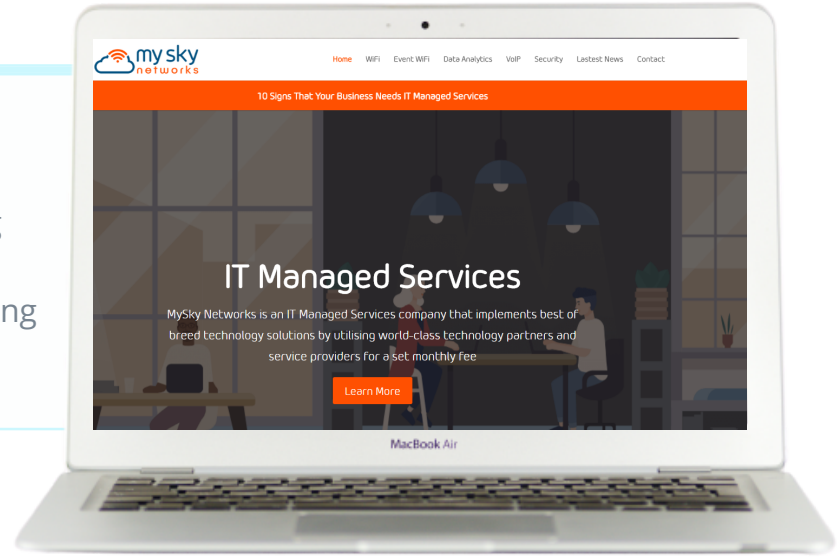
How MySky Networks Experiences Year-on-Year Growth

What They Do:

MySky Networks is an IT Managed Services company that implements best of breed technology solutions by utilising world-class technology partners and service providers for a set monthly fee. Their solutions are based on a Managed Services approach and include a turnkey solution for a set monthly fee, all hardware, software, and support included in the set monthly fee, there is also no install fee or hidden extra costs. The services include WiFi and Switching, IT Network Security, VoIP, Data Analytics, Network Cabling and Broadband.

How We Helped:

- Consolidated Reporting
- Comprehensive Accounting
- Tax Planning
- Custom Dashboard Reporting
- CFO Services



"Knowledgeable, helpful, and effective, I highly recommend CFO360 when starting a new business to guide and advise you along the way."

Dylan Horsten - Chief Executive Officer | MySky Networks
